

REGATTA DIRECTOR NOTICE #011

Amended 22 January 2021

RE: Race Course Intentions & Managing Wind Shifts

Course Set Up

As a starting point, I will endeavour to set up a course with:

- six legs
- target time of 25 minutes
- a minimum of two tacks per upwind leg
- a minimum of two gybes per downwind leg

Wind Shifts

After a race has started, I intend to abandon a race:

- as required by RRSAC 32.3
- if there is a significant persistent wind shift (that allows a competitor to complete a leg of the course without tacking or gybing, except for a mark rounding) at any time in the first three legs

Iain Murray
