DATE: 28 June 2018

Re. Trustee Memorandum No 2 – Team Base Area Allocation in Auckland

Background:

Article 43.1 of the Protocol specifies that RNZYS shall allocate at the venue for the AC Christmas Cup, the CSS and the Match (**AC36 Events**) a temporary space to each Challenger on which they will build at their own expense their team base.

On the 26th of March 2018, a Host City Appointment Agreement was entered in to with the Auckland Council and MBIE on behalf of the New Zealand Government appointing Auckland as the Host City for the AC 36 Events.

Over the past two months RNZYS has received a number of enquiries about the team base allocation from both the consortium responsible for the building of the infrastructure to support the team bases and Competitors. In order to assist planning and give certainty to both Competitors and the Host City, RNZYS considers it is important to undertake the team base allocation now, subject only to any adjustments which may be required after the infrastructure Resource Consent is granted.

Request for Preference:

Attached is a plan of the team base areas. Each Competitor is requested to send their preferences to the below email addresses by 17:00 hours next Tuesday the 3rd of July 2018 NZT as follows:

Luna Rossa: One preferred team base area
American Magic: Two team base areas in order of preference.
Team Ineos : Three team base areas in the order of preference.

Allocation:

RNZYS will then complete the base allocation giving first priority to Luna Rossa's choice then American Magic and finally Team Ineos UK. If no preference is received then RNZYS will choose the allocation for that team.

The outcome of the allocation will then be circulated next week.
